

Increase efficiency and productivity with the Mastercap Indexing Capper, for the **Chemicals, Lubricants, Personal Care, Food & Pharma** Industries

 **UK MANUFACTURED**

Proven concept, 40 years in the marketplace

- High quality, appreciated by the most demanding customers, including BASF, Chevron, Bayer Crop Science, Boots, Baxter, Novartis and more.

Time-efficient, fast capping

- Up to 60 caps per minute; perfect for capping containers up to 25L.
- No container, no cap and queue sensing, to reduce waste and increase throughput.
- Cost-effective and fast single tool changeover; switch between different products and caps in minutes.

Versatile applications

- Ideal for Screw caps, Press on caps, Tamper proof caps, Sports caps, Aerosol overcaps, Angled neck containers and Inserts.
- A wide range of adjustable application torques, including high torque capability.
- Different cap feed options to suit different requirements: choose from Bulk Hopper Elevator, Disc Feeder or Vibratory Bowl Feeder.

## Optimum hygienic design

- Full stainless steel construction, to allow the most thorough possible cleaning.
- Cushioned starwheel for slop prevention.
- Complete integral drip trough for contained spillages.
- Cap sterilisation option, using UV light on the cap feed chute.

## Superior build quality, long service-life, greater ROI

- Stainless steel build offers exceptional chemical resistance.
- Cost-effective, precision-engineered format parts.
- Many of our machines are still fully operational over 30 years after purchase!

## Market-specific features to precisely meet your requirements

- Including integration with induction sealing and inkjet printing on the outfeed.

Our technical team will be delighted to suggest the best specification for you. Please share with us the below information, so that we can prepare a quotation:

1. The container and cap type, and dimensions – with samples if possible
2. The capping speeds expected
