

Increase efficiency and productivity with the Response Automation Base, for the **Pharmaceutical, Cosmetics, Food & CBD** Industries

 **UK Manufactured: Zero EU Import Duty**

Increase production; semi to fully automatic, for a fraction of the cost

- Up to four Adelphi Response Benchtop Fillers can be incorporated into the fully automated Response Automation Base – this means that your initial investment is never made obsolete.
- These can also be used independently if required; the Response Automation Base converts from an 8-head automatic filler into <4 benchtop filling machines within just 30 minutes.

Total versatility; to fill your complete range of product and container types

- Ideal for filling liquids, oils, gels, creams, pastes and liquids with particulates.
- For one recent customer, the Response Automation Base filled each of their 8 different container types (right) with equal efficiency!

Time-efficient, fast filling

- Up to 60 containers per minute; up to 29,000 containers per 8 hour shift!
- Choose the ideal filling speed to best suit your product; eliminated unwanted foaming, for maximum possible throughput.

Reduces product waste, increases profitability

- Exceptional filling accuracy of $\pm 0.25\%$ significantly improves your ROI.
- Pneumatic cut-off nozzles ensure a clean fill, with no dripping.

Exceptionally hygienic

- 316L pharmaceutical grade stainless steel wetted parts adhere to FDA regulations, to guarantee international pharma-quality compliance for your business.

Response Automation Base,
