OUR TAMPER EVIDENT SOLUTIONS FOR THE FOOD SECTOR

OUR TAMPER EVIDENT SOLUTIONS FOR THE FOOD SECTOR:

At Viscose, we know that ensuring the security of your food products is paramount. From sauces to spices, honey to ice cream and everything in between we're passionate about protecting your product. Our tamper evident solutions are specifically designed to prevent tampering and counterfeiting ensuring only safe quality goods enter the market.

We understand the food industry is a fast-paced competitive environment, you need solutions that are flexible, reliable and right first time. New product launches, re-branding and promotions require short runs, quick turnaround times and a supply chain that won't let you down. Dual purpose and functional are two key elements when considering your tamper evident packaging. We offer decorative shrink sleeves and printed closures that provide security as well as branding to help your product stand out on the shelf. Alongside this, we can make this vital packaging sustainable for you too, assisting you in achieving your environmental goals.

HERE'S A FLAVOUR OF WHAT WE CAN OFFER:

SHRINK SLEEVES

HEAT-SHRINK SLEEVES & CAPSULES:

Shrink sleeves, also known as tamper bands, shrink bands or full body sleeves, act as a secondary seal around your container to prevent contamination and tampering. Shrink sleeves provide reassurance to the end consumer reducing shelf reject rates & enhancing your brand integrity.

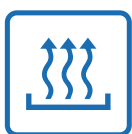

Available in a variety of sustainable films our heat-shrink sleeves are perfect for the eco-conscious producer or packer. Heat-shrink sleeves are also a great branding tool, we use multi-colour gravure printing which is durable and prevents scuffing to ensure a premium finish. Full body sleeves in particular are dual purpose with a large print surface for your messaging as well as being tamper evident.
