

Protecting your product, enhancing your brand

OUR TAMPER EVIDENT SOLUTIONS FOR THE DRINKS SECTOR

OUR TAMPER EVIDENT SOLUTIONS FOR THE DRINKS SECTOR:

At Viscose, we know that ensuring the security of your drinks products from counterfeiting and contamination is paramount. Whether it's spirits, soft drinks, or wine we're passionate about producing and supplying tamper evident packaging that will protect your product and enhance your brand at the same time.

The drinks market is highly competitive, you need packaging & branding that will stand out on the shelf, a reliable supply chain and quality packaging to minimise reject rates and preserve your run rate.

HERE'S A TASTE OF WHAT WE CAN OFFER:

CAPS & CLOSURES

Bottle caps and closures are a critical part of a products primary packaging. They are designed to preserve the integrity of the liquid contents from bottling through to end consumer and are an integral part of the opening experience. Bottle caps are the finishing touch in the mix of packaging that makes up your uniquely branded container, and as such they need to be easy to use as well as visually appealing.

Viscose has been distributing caps and closures for over 30 years, proudly serving customers across drinks categories including spirits, water, soft drinks, and wine. We represent European manufacturers that produce only the highest quality, reliable bottle caps in a variety of sizes and finishes.

KEY INFORMATION:

- ✓ Bartops and corks – 100% natural cork, responsibly harvested from Portugal with a variety of finishes to compliment your brand.
- ✓ Metal GPI closures
- ✓ Aluminium ROPPs
- ✓ All closures come in a multitude of sizes with top & side printing, colour matching and embossing available.
- ✓ Heat shrink capsules – traditional closed top capsules available in diameters 20mm to 43mm with finishes such as hot foiling, hot stamping, flexo & digital print.
- ✓ UK stocks of our most popular lines: Metal ROPP 28x15, 30x35 and 18x12, and 1810 Flat plastic all in a variety of colours.
- ✓ Experienced, reliable service team – many of our customers have been with us for 15 years or more and are based all over the world.

SHRINK SLEEVES

HEAT-SHRINK SLEEVES AND OPEN TOP CAPSULES:

Primary closures such as GPIs, bartops and corks are not tamper evident on their own and need a secondary seal. Known as pre-formed shrink sleeves or open top capsules, these sleeves are a unique and ideal solution to secure and seal your primary closures. The sleeves are provided pre-moulded and pre-formed to fit the shape of your closure and bottle, just simply add heat and the sleeves will shrink down to look like traditional heat-shrink sleeves in seconds, ensuring your products are safe and secure from contamination and tampering.

KEY INFORMATION:

- ✓ Ideal solution for contract bottlers, packers and producers.
- ✓ Short lead times - from as little as 5 days for plain products.
- ✓ Multiple formats to suit your production capability: pre-formed sleeves, open and closed top capsules.
- ✓ Available in a variety of sustainable films and microns including recyclable PET, 30% recycled content rPET and industrially compostable PLA as well as traditional PVC.
- ✓ Additional finishes such as vertical /horizontal/ "T" perforations and coloured tear strips for easy opening.
- ✓ In house printing experts able to colour match your product and advise on design.
- ✓ Reel-fed and pre-cut sleeves also available.

PLASTIC-FREE SHRINK SLEEVES:

Our unique, plastic-free shrink sleeves are made from sustainable wood pulp. They are biodegradable and home compostable making them an eco-friendly packaging solution with a superior finish for your drinks produce.

KEY INFORMATION:

- ✓ Perfect solution for unique and unusually shaped bottles.
- ✓ Heat-free - self-shrinking at room temperature within an hour, perfect for heat sensitive contents and reducing energy consumption and costs.
- ✓ Hand applied - no investment needed for bulky, heavy, or expensive equipment, just apply and let dry.
- ✓ Low MOQs starting from 1,000 sleeves, great for craft and artisanal beverage producers.
- ✓ Available in a variety of standard & bespoke colours.
- ✓ Ability to print your brand logo or message.
- ✓ Lead time 4-6 weeks

ALL OUR SOLUTIONS COME WITH OUR RELIABLE AND FRIENDLY SERVICE – AND OUR CUSTOMERS AGREE:

BRITVIC:

Viscose Closures provide metal caps for much loved Britvic soft drinks such as Purdey's, J2O Spritz and Robinsons Cordials. The account is managed efficiently by the experienced team and Viscose is a reliable and responsive partner. Viscose continuously rise to every challenge Britvic sets.

HALEWOOD ARTISANAL SPIRITS UK LTD:

Viscose are a reliable supplier with excellent on time in full delivery history and to top it off, they're really competitive in terms of price and quality.

THE GOWER GIN COMPANY:

Plastic-free shrink sleeves are an excellent product and a key part of our sustainability journey; we love that they biodegrade in food bins too! We've been working with the company for over five years and we highly recommend.

CELTIC VALE:

We've been dealing with Viscose for a long time and we always get a great service. Fast efficient and helpful, they're a great company to work with.

ISLE OF WIGHT DISTILLERY:

We've worked with Viscose for many years and grown with them as a company.

The relationship has helped us to achieve plastic-free status with our product, working together to develop pioneering tamper-proof seals that now continue to influence many businesses and brands worldwide – a win for us both. To have the opportunity to work together and transfer the necessary skills and knowledge of our industries to bring to market something that benefits people and the planet proves the length Viscose will go to for their customers and for that we are grateful

GLENPATRICK SPRING WATER:

Viscose are pleasure to deal with. Over the years they've proved to be supplier which our business can rely on.
